## **DETAILED ACTION**

### ***Response to Amendment***

1. This office action is in response to amendment filed on 2/28/05.
2. Claims 1 – 2 are presented for examination. Claims 3 – 4 are canceled.

### ***Allowable Subject Matter***

3. Claims 1 – 2 are allowed.
4. The following is an examiner's statement of reasons for allowance: the record of prior art does not show a motor having a stator with a plurality of piled first core plates and at least one second core plate being provided between the piled first core plates and a base plate with a circuit board fitted on, and the plurality of the extended pole sections of the second core plate is less than the plurality of the first extended pole sections. Nitta (U.S. Patent No. 5,604,389) teaches the feature of the circuit board fitted on the base plate and having a plurality of through-holes for ventilation, but he fails to teaches the structure of the stator core plates.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
